

GRIPHOOK™

Lift-All's patent pending *GripHook* design converts your forklift into a below the fork lifting device in a matter of seconds. These should be obtained for every forklift to avoid the unsafe/disallowed practice of hanging loose slings over forks. The *GripHook* replaces older style, heavy metal attachments.

The self-gripping design allows the *GripHook* to tighten around the fork when a load is applied. The easy to attach *GripHook* does not require any tools to install.

This economical solution is made from high quality synthetic materials saving you money, without compromising lift capacity.
