

WEAR PADS

The Importance of Wear Protection

Wear Protection products like wear pads extend the life of slings by reducing exposure to abrasion and other similar forms of damage. Wear pads also help protect load surfaces from damage along points of contact, particularly when used with steel slings. **Always inspect slings by following the safety bulletin provided with each sling.**

Features and Benefits

Sling and Load Damage Protection: Wear Protection can help to protect both the sling and the load from wear damage.

Construction Materials: A variety of padding materials are available to best suit the needs of each application.

Ease of Attachment: Some styles use hook and loop fastening to allow quick attachment and to help keep the position on the sling.

Ease of Sling Inspection: Length selection and other pad options are available that allow easy access to slings for frequent inspections.

Available Sizes: Available in a variety of lengths and widths.

- A: Tubular Quick Sleeve - *Webmaster*® 1600
- B: Flat Quick Sleeve - Pukka Pad Material
- C: Flat Sewn Sleeve - *Webmaster*® 1600
- D: Sewn-On Wear Pad - Texturized Buffer
- E: Edge Guard - Texturized Buffer

Flat Sewn Sleeve

Tubular Quick Sleeve

WEAR PAD STYLES

SLEEVE TYPE

Preferred for slings that are used in a variety of lifting situations. Easily repositioned along sling body to accommodate loads of various sizes. Sleeve allows sling to adjust to lift without movement against load edge.

Tubular Quick Sleeve	Use with: <i>Tuflex</i> ® Roundslings Chain & Wire Rope Available Materials: All (except PVC)	High strength hook & loop sleeve for secure positioning. Tubular design gives maximum usable surface and maximum pad life.
Flat Quick Sleeve	Use with: All Slings Available Materials: All (except PVC)	Hook & loop sleeve allow easy installation and removal. Friction keeps sleeve in place when rigging.
Flat Sewn Sleeve	Use with: All Slings Available materials: All (except PVC)	Preferred for long-term use on single sling. May be repositioned as needed along sling length. May require factory installation for slings with hardware and single leg <i>Tuflex</i> .
Poly Pads	Use with: Web Slings Available Materials: PVC	Slides easily along sling length for convenient sling protection. Must be installed at factory for web slings with hardware.

SEWN-ON TYPE

For use on web slings where repetitive lifting situations expose the sling to damage. Eliminates the need to position pad before each lift.

Sewn-On Wear Pad	Use with: Web slings only Available Materials: All except ballistic nylon	For sling protection at expected wear points. Can be sewn anywhere on the sling, be any length and be on one or both sides.
Edge Guard	Use with: Web slings only Available Materials: Texturized nylon Light leather	Helps protect both edges of the sling. Placement on the sling per customer requirement.

WEAR PAD MATERIALS

Pukka-Pads (P) 0.3125" Thick

A high-density polyester felt.

Webmaster® 1600 (D/N) 0.1875" Thick

Polyester or Nylon

Heavy Leather (HL) 0.15625" Thick

Genuine top-grain cowhide. May require multiple pieces.

PVC Belting (PVC) 0.125" Thick

Non-absorbent conveyor type belting.

Texturized Buffer (TN) 0.09375" Thick

A bulked fiber is used to produce a thin webbing with good abrasion resistance.

Ballistic Nylon (BN) 0.0625" Thick

A 2-ply wear resistant fabric made of bulked nylon fiber, appropriate for wider sleeves.

² Chart is for 1-ply or 2-ply slings. For 3-ply or 4-ply slings, use the next larger sleeve.

POLY PADS

Easily movable poly pads are made of tough, woven polyester fabric impregnated and coated with PVC. Easy to position on both web slings and tiedowns. Poly pads are designed to give protection when lifting around load edges or abrasive loads.

Part Number	Poly Pad	Web Width (in.)
60115	3-1/2 X 12	1 – 2
60116	6 X 12	3 – 4

How To Order

1. Choose code for width and style

- TQS Tubular Quick Sleeve
- FQS Flat Quick Sleeve
- SS Flat Sewn Sleeve
- WP Sewn-On Wear Pad
- EG Edge Guard
- Poly Pad (Use Part No. above)

2. Choose a Material

- P 5/16" Heavy Duty Pukka-Pad
- N Webmaster® 1600 Nylon
- HL Heavy Leather
- TN Texturized Buffer
- BN Ballistic Nylon (Tubular only)
- PVC (Sewn-on Wear Pads only)

3. Length of Sleeve

(If sewn-on pad, describe position on sling)
 _____ Feet

4. For Use On

- _____ Web Sling (Code or Width)
- _____ Tuflex _____ Single-Leg (Code) _____
- _____ Double-Leg (Code) _____

- _____ Chain Sling Size _____ inches
- _____ Wire Rope Sling Dia. _____ inches

WARNING

Wear pads may not prevent cutting or other sling damage. To avoid severe personal injury or death, keep all personnel clear of loads about to be lifted, and suspended loads.
