

## WHY LIFT-ALL?

### Safety-in-Lifting Training

A presentation, available in both English and Spanish, covers all types of slings and suggests the best type of sling for common lifting applications. You will learn safe lifting procedures, proper inspection criteria, maintenance and more (in accordance with OSHA and ASME B30.9 guidelines).

### Sling Inspection Services

OSHA regulations require that all slings receive a thorough inspection at least once per year by a competent person. OSHA also requires each chain slings to have a documented inspection at least once per year. You now have the opportunity to have a thorough, documented inspection performed by a factory-trained *Lift-All* representative. Chain slings, wire rope slings, web slings, roundslings and wire mesh slings which can be inspected in one survey by a representative from the most recognized manufacturer of lifting and load securement products - *Lift-All* Company.

### The Inspection Procedure

Each sling is individually recorded and reported by location, serial number (if available), size, type, reach and condition.

We will affix a warning to those slings found to be damaged.

A sling survey report will be submitted to you for your records, showing the above details and including graphs for a quick representation of your inspection.

Let us help you reduce your overall cost of slings and make your lifts safer by identifying recurring problems and offering solutions to keep your slings in service longer.

If you wish to repair or replace any of the damaged slings, we will provide cost estimates to do so. Sling Inspections not only help to ensure safe lifting equipment but also increase employee awareness of sling safety, creating a safer workplace for all. To inquire about or arrange for your sling inspection, please call us at 800-909-1964.
